High Lumen BR30

Luminaires

ValueLED™ Non-Cutoff Wall Pack – EM

- A new emergency line extension extends the functionality of the family by providing a battery backup allowing the fixture to operate in emergency mode for 90 minutes as required by code
- 50W - 80W range of makes them ideal to replace traditional HID luminaires with light sources from 70W to 250W and with efficacies of up to 145 lumens per watt provide energy savings of up to 77%
- DLC Premium

UltraLED™ Mini Wallpack

- Internal CCT selectable switch including 3000K, 4000K or 5000K with high color rendition, >80 CRI
- Integral photo control is included which can be easily disconnected, if not needed
- Available in 15W and 30W versions replaces HID luminaires from 32W CFL – 50W HPS or 150W incandescent. Efficacies of up to 130 lpw and energy savings of up to 70%. DLC Premium

UltraLED™ Low Wattage Backlit Panel

- Applications include offices, schools, and commercial applications in general
- Up to 133 lumens per watt, the new Panels meet DLC Premium and are CCT Selectable (3500K, 4000K and 5000K), providing versatility and reducing the number of SKUs
- Available in 2x2/18W and 2x4/24W versions and are compatible with all backlit accessories, including the surface mounting kits

UltraLED™ CCT Selectable Canopy

- Applications include parking garages, covered corridors, walkways and stairwells
- Internal CCT selectable switch offers 3000K, 4000K or 5000K with high color rendition, >80 CRI
- Replaces HID luminaires from 35W HPS – 175W MH with efficacies up to 140 lpw which provide energy savings of up to 70%. Optional integrated daylight/microwave-motion sensor. DLC Premium

Hi-PerformanceLED™ Vanity

- Family is Wet Rated, and offers 5 color selectable in one product
- 5-year warranty
- Ideal to renew bathroom, hospitality or other residential lighting

Hi-PerformanceLED™ Saturn Ring Selectable

- Slim modern design that makes every environment look avant-garde
- 5-year warranty and energy savings up to 85%
- Choose your favorite color temperature due to its 5 color integrated selectable switch.

Luminaires

UltraLED™ CCT Puff Ceiling

- Slim modern design that makes every environment look avant-garde
- 5-year warranty and energy savings up to 86%
- Can be used in every ceiling from residential, hospitality, and retail applications

Hi-PerformanceLED™ Puff Ceiling

- Slim modern design that makes every environment look avant-garde
- 5-year warranty and 5-color selectable integrated switch allow energy savings up to 86%
- Can be used in every ceiling from residential, hospitality, and retail applications

Hi-PerformanceLED™ Slim Downlight Selectable

- A complete portfolio with a very slim profile – less than an inch thickness
- CEC compliant, and ENERGY STAR® certified
- Dual installation method – hardwired or E26 Screw base (accessory included)

UVLightFight™ System

LEDVANCE UVLightFight™ UV-C Lamp

- Produce high UV-C radiance at 254nm for effective surface disinfection or purification of air and water by destroying bacteria, mold, yeast, and viruses in professional applications
- Applications include hospitals, offices, schools, universities, laboratories, water treatment facilities, or specially designed HVAC systems
- Available in multiple sizes (18, 36, and 48 inches) and power (15W, 25W, 30W, 36W, 55W, and 75W) to suit a wide range of applications

LEDVANCE UVLightFight™ UV-C Ballast

- Launched under the LEDVANCE brand, the portfolio of UVLightFight™ UV-C ballasts operate our LEDVANCE UVLightFight™ UV-C lamps
- Programmed start ballasts to maximize lamp life and 120-277Vac universal input voltage
- Applications include hospitals, universities, laboratories, water treatment facilities or specially designed HVAC systems. The portfolio operates 1, 2, 3 or 4 of the 4ft 36W lamps, 2 of the 1.5ft 15W lamps, and 1 of the 3ft 30W and 55W lamps of the LEDVANCE UVLightFight™ UV-C lamp portfolio

Tubes
